Subject: Rolling Knolls Additional PFAS Investigation Request
Attachments: EPA Additional PFAS Investigations Request.pdf

Hi John,

Following up on our conversation regarding the presence of PFAS in groundwater at the Rolling Knolls Landfill Superfund Site, EPA is requesting additional investigations to fully characterize and delineate the nature and extent of PFAS at the Site. Please see the request in the attached letter. Let me know if you have any questions. Thanks.

Sincerely,

Rupika Ketu

Remedial Project Manager
Superfund and Emergency Management Division
U.S. Environmental Protection Agency, Region 2
